

PROJECT PLANNING PHASE

Planning Logic

The planning logic follows the terminology and estimation approach in the supplied planning material. A Sprint is treated as a fixed working period, an Epic as a larger body of work, a Story as a smaller task within an Epic, and Story Points as an estimate of effort using the Fibonacci-style values 1, 2, 3 and 5.

Story Point Scale

Sprint 1 – Data Import and Preparation

Sprint 1 total = 2 + 1 + 3 + 3 + 3 = 12 story points.

Sprint 2 – Reporting and Dashboard

Sprint 2 total = 2 + 2 + 2 + 5 + 5 = 16 story points.

Total Story Points and Velocity

Sprint 1 = 12 story points

Sprint 2 = 16 story points

Total planned story points = 28

Team velocity = Total story points completed / Number of sprints = 28 / 2 = 14 story points per sprint.

The supplied planning logic document uses a two-sprint structure and calculates velocity as total completed story points divided by the number of sprints. The task breakdown above adapts that method to the actual ServiceNow project.

Planning note: the source material does not provide actual calendar dates or individual team-member names for this project, so those details are intentionally not invented.

Date	03 October 2026
Team ID	SWTID-2026-8740
Project Name	Employee Data Management using ServiceNow Import Sets and Transform Maps
Maximum Marks	Reference / Planning Logic

Story Points	Meaning
1	Very easy task
2	Normal task
3	Moderate task
5	Difficult task

Epic	User Story	Task	Story Points
Data Import	USN-1	Prepare employee spreadsheet data	2
Data Import	USN-2	Load employee data into ServiceNow Import Set	1
Data Configuration	USN-3	Create Employee Test table and required fields	3
Data Configuration	USN-4	Create and configure Transform Map field mappings	3
Data Quality	USN-5	Configure Coalesce using Employee ID and verify update/duplicate behavior	3

Epic	User Story	Task	Story Points
Reporting	USN-6	Create Employees by Department report	2
Reporting	USN-7	Create Employees by Location report	2
Reporting	USN-8	Create Employee List report	2
Dashboard	USN-9	Create Employee Analytics Dashboard and add reports	5
Validation	USN-10	Perform end-to-end import and update verification	5
